JOURNAL OF APPLIED CARDIOLOGY

Volume 2, Number 1 1987

Contents

A.K. Kahan
J.-Y. Devaux
A. Nitenberg
S. Weber
B. Amor
C.-J. Menkès
F. Guérin
M. Degeorges
1 The Coronary Circulation in Systemic Sclerosis

H.N. Sabbah
D.E. Albert
P.D. Stein
21 Detection of Critical Coronary Stenosis in Dogs: Global Left Ventricular Response to Isoproterenol

H. Taegtmeyer
C.M. Zirafi
V.T.B. Nguyen
37 Function and Metabolism of the Heart in Diabetes: A Fresh Look at an Old Problem

B.G. Benfey
49 Function of Myocardial α-Adrenoceptors

Volume 2, Number 2 1987

Contents

V. A. Starnes
J. C. Baldwin
A. Harjula
71 Combined Heart and Lung Transplantation—the Stanford Experience

G. Renault
D. Duboc
M. Degeorges
91 *In Situ* Laser Fluorimetry in Cardiology: Preliminary Results and Perspectives

M. J. Daly
N. S. Dhalla
105 Sarcolemmal Na^+-K^+ ATPase Activity in Hypothyroid Rat Heart

A. Harjula
S. Mattila
M. Salmenpera
M. Harkonen
K. Kyosola
I. Mattila
P. Mattila
K. Aalto-Setala
L. Rechardt
P. Nikki
E. Merikallio
121 Perfluorocarbon Solution as a Myocardial Preservative

K. M. McIntyre
A. F. Parisi
R. Brown
D. E. Tow
E. D. Folland
G. V. R. K. Sharma
S. Scharf
D. Pietro
137 Validation and Clinical Applications of a Non-Invasive Valsalva Response Recorder

Volume 2, Number 3 1987

Contents

H. Blaschko
171 A Half-Century of Research on Catecholamine Biosynthesis

A. D. Timmis
J. A. Lopez
J. T. Fallon
B. A. Khaw
E. Haber
W. J. Powell, Jr.
185 Detection of Early Necrosis in a Canine Model of Low Flow Myocardial Ischemia Using ^{125}I-Antimyosin (Fab')$_2$

M. Endoh
213 Dual Inhibition of Myocardial Function Through Muscarinic and Adenosine Receptors in the Mammalian Heart

H. Taegtmeyer
R. R. Russell, III
231 Glutamate Metabolism in Rabbit Heart: Augmentation by Ischemia and Inhibition With Acetoacetate

A. R. Denniss
D. L. Ross
D. C. Johnson
T. Yung
W. J. Delprado
J. B. Uther
251 Abnormalities on Signal-Averaged Electrocardiogram and Electrophysiologic Study in Patients With Ventricular Tachyarrhythmias Not Associated With Ischemic Heart Disease

S. W. Rabkin
J. Holan
269 Effect of Amiloride on Digitalis-Induced Ventricular Arrhythmias in Guinea Pigs

Volume 2, Number 4 1987

Contents

E. A. Raeder
R. Berger
R. Kenet
J. P. Kiely
H. Lehnert
R. J. Cohen
B. Lown
283 Assessment of Autonomic Cardiac Control by Power Spectrum of Heart Rate Fluctuations. Effect of Neural Ablation and Suppression of Efferent Sympathetic Nerve Traffic

H. Schröder
D. C. Leitman
L. D. Hayward
B. M. Bennett
F. Murad
301 Cultured Rat Lung Fibroblasts As a Model for Organic Nitratre-Induced Cyclic GMP Accumulation and Activation of Guanylate Cyclase

M. G. Bourassa
313 Recent Concepts in the Management of Myocardial Failure Complicating Acute Myocardial Infarction

P. K. Ganguly
G. N. Pierce
N. S. Dhalla
323 Diabetic Cardiomyopathy: Membrane Dysfunction and Therapeutic Strategies

R. E. Weishaar
S. D. Burrows
S. N. Kim
D. C. Kobylarz-Singer
L. K. Andrews
M. M. Quade
R. Overhiser
H. R. Kaplan
339 Protection of the Failing Heart: Comparative Effects of Chronic Administration of Digitalis and Diltiazem on Myocardial Metabolism in the Cardiomyopathic Hamster

continues on next page

Volume 2, Number 5 1987

Contents

T. H. LeJemtel
S. D. Katz
E. H. Sonnenblick 361 Newer Inotropic Agents for Managing Patients With Congestive Heart Failure

T. J. Regan 379 The Myocardium in Diabetes Mellitus

A. L. J. Harjula
J. C. Baldwin 397 Lung Transplantation in the Pig With Successful Preservation Using Prostaglandin E-1

S.W. Rabkin
M. Redston 403 Cardiovascular Effects of Centrally Administered Opioid Peptides Considering Their Opioid Receptor Agonist Properties

Volume 2, Number 6 1987

Contents

W.F.H.M. Mommaerts 431 The Molecular Biology of Adaptation in the Heart

Á. Végh
E. Udvary
L. Szekeres 447 Cardiac Electrophysiologic Actions of Verapamil, Diltiazem and Difedipine in the Anesthetized Dog Using Computer Controlled Programmed Electrical Stimulation

P.B. Bennett 463 Mechanisms of Antiarrhythmic Drug Action: Block of Sodium Channels in Voltage Clamped Cardiac Cell Membranes

T.A. Fischell
R. Ginsberg 489 Loss of Endothelial-Dependent Arterial Relaxation Following Balloon Angioplasty
